IN THE SPECIFICATION

On page 3, please replace the second and third paragraphs with the following:

FIG. 2 ~~is a chart depicting~~ <u>depicts</u> an exemplary correlation of user interaction with the device of FIG. 1 and data stored by the sensors of such device in a learning phase for determining a rule of use; and

FIG. 3 ~~is a chart depicting~~ <u>depicts</u> an exemplary situation in which the device will recognize a similar sensor pattern as in FIG. 2 and select the rule stored determined during the learning phase.

On page 6, please replace the second full paragraph with the following:

Referring to FIG. 1, ~~The~~ <u>the</u> mobile device 10 includes communication hardware and software 8 for implementing mobile communications functions, one or more sensors 9 and a memory 7 for storing both processing instructions that enable the functionality described herein and a rules database 6 for storing rules of operation <u>together with a display 12 for presenting a user interface for selecting a plurality of operations and a processor 14 for, among other things, segmenting sensor signals into a time sequence of data segments</u>, as described further below.
